

Copyright and open access option forms

All the articles are published online and made accessible to subscribers as soon as the manuscript is fully processed and edited. Through the open access option, EDP Sciences offers the authors of *Astronomy & Astrophysics* the opportunity to make their papers freely available to all interested readers (subscribers or non-subscribers) as soon as they are published online.

Copyright on any open access article is retained by the author(s) under the Creative Commons Attribution license, which permits unrestricted use, distribution, and reproduction in any medium, provided the original work is properly cited.

If you require that your article go for open access, then please fill and return the following **Open Access form and license agreement** (pages 2 and 3).

If you do not require open access publication, then please fill and return **copyright transfer form** (page 4).

The filled-in forms should be returned to EDP Sciences through your SAGA account at <https://saga.edpsciences.org> (or by e-mail to aa.saga@edpsciences.org).

★ IMPORTANT NOTICE!

If your institution is a **Max Planck Institute** in Germany or part of the **National Open Access Agreement in France** (e.g. CNRS, CEA, large number of French Universities, ...), then you just have to tick the open access option (on page 2) to be entitled to it free of charge, as open access charges are already covered by transformative agreements with these institutions. In that case, would you please also send back the signed license agreement (page 3).

National open access agreement in France: Please refer to
<https://www.edpsciences.org/en/national-open-access-agreement-in-france>

Transformative agreement with Max Planck Society: Please refer to
<https://www.edpsciences.org/en/news-highlights/1753-astronomy-astrophysics-signs-transformative-open-access-agreement-with-max-planck-society>

Open access

☐ My institution is a Max Planck Institute in Germany or is covered by the National Open Access agreement in France.
Your article will be published in open access, free of charge, subject to validation by the funding institution.
Please fill in the License agreement form (page 3)

☐ My institution is not a Max Planck Institute nor covered by the National Open Access agreement in France:
 please select one of the two options below:

☐ I accept to pay 1500 € (without VAT) to have my
 paper in open access.
 (E.U. countries: 20% VAT should be added,
 or **V.A.T. Identification Number** provided)

☒ I do not accept

Please fill in the Copyright transfer agreement (page 4)

Please fill in the License agreement form (page 3)

Please fill in the following form and return it promptly. Prompt payment is advised, as the article will not be in open access until payment is received.

You can pay by credit card (fill in the form below (1)), by credit transfer (2), or supply an official purchase order from your institution (3).

License Agreement for open access publication

To be filled if you selected the open access option

In submitting a document to *Astronomy & Astrophysics*, I certify to the Publisher that:

1. I am authorized by my co-authors to enter into these arrangements.
2. I warrant, on behalf of myself and my co-authors, that:
 - the document is original, has not been formally published in any other peer-reviewed journal, is not under consideration by any other journal and does not infringe any existing copyright or any other third party rights;
 - I am/we are the sole author(s) of the article and have full authority to enter into this agreement and in granting rights to the Publisher that are not in breach of any other obligation;
 - If the law requires that the article be published in the public domain, I/we will notify the Publisher at the time of submission upon which clause 3 do not apply;
 - the document contains nothing that is unlawful, libelous, or which would, if published, constitute a breach of contract or of confidence or of commitment given to secrecy;
 - I/we have taken due care to ensure the integrity of the article. To my/our – and currently accepted scientific – knowledge all statements contained in it purporting to be facts are true and any formula or instruction contained in the article will not, if followed accurately, cause any injury, illness or damage to the user.
3. I agree to the Creative Commons Attribution License 4.0 Unported License (<https://creativecommons.org/licenses/by/4.0/>).

Title of the article:

How do velocity structure functions trace gas dynamics in simulated molecular clouds?

Author(s): Roxana-Adela Chira ; Juan Camilo Ibáñez-Mejía ; Mordecai-Marc Mac Low ;
Thomas Henning

Author's signature:

Date: August, 26th 2019

Copyright Agreement

To be filled if you did NOT select the open access option

I hereby grant and assign the entire copyright in the article entitled:

How do velocity structure functions trace gas dynamics in simulated molecular clouds?

and authored¹ by:

Roxana-Adela Chira ; Juan Camilo Ibáñez-Mejía ; Mordecai-Marc Mac Low ; Thomas Henning

to ESO.

The copyright consists of all rights protected by the worldwide copyright laws, in all languages and forms of communication, including the right to furnish the article or the abstracts to abstracting and indexing services, and the right to republish the entire article in any format or medium.

In return, ESO grants to the author(s) the non-exclusive right of republication, subject only to their giving appropriate credit to A&A. This non-exclusive right of republication permits authors to post the published PDF version of the above article on their personal and/or institutional web site(s), including ArXiv. The non-exclusive right of republication also includes the authors' right to grant reproduction of parts of your article wherever they wish, provided they request the permission to do so from the A&A Editor-in-Chief (aanda.paris@obspm.fr). To protect the copyright in the article, the following notice should be included in the credit: "Credit: Author, A&A, vol., page, year, reproduced with permission, © ESO".

Date: August 26th, 2019
